

Conditioning Station

These stations heat media to process-specific temperatures and maintain them constantly. Stirring and mixing systems can also be integrated.

Outstanding features

- Temperature control with tight tolerances
- Designed for various media: viscous, abrasive, temperature-sensitive
- Interfaces to dosing and reaction modules
- Optional with logging and alarm management

Technical Data

SPECIFICATIONS	
IBC footprint	1200 x 1000 mm
IBC size	1000 l
Agitator	with / without
Discharge	manual / automatic
Delivery	worldwide
